AES Targets and Achieving Efficiency Gains in the East Midlands

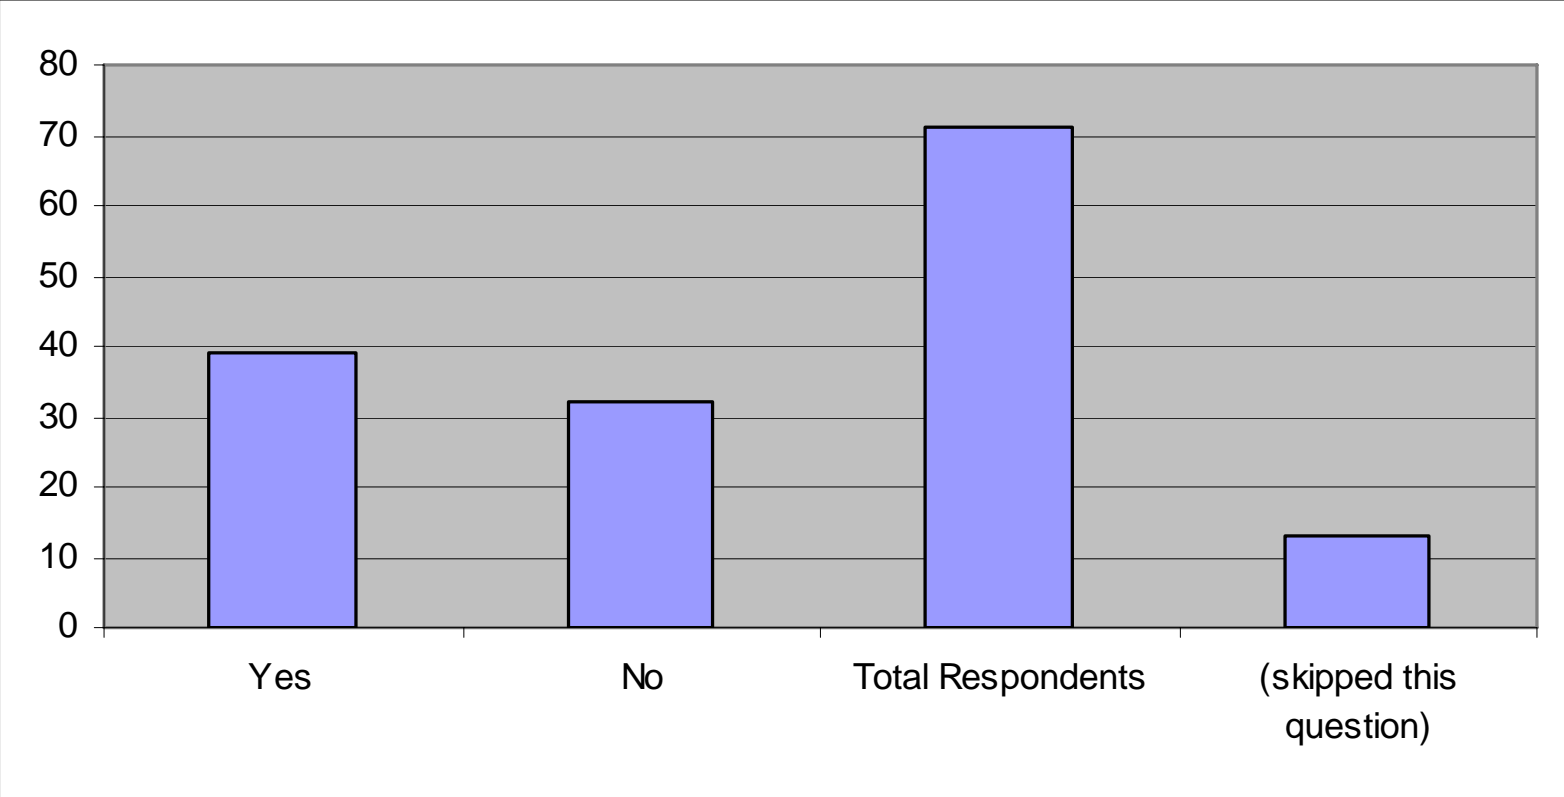

Does your organisation have a programme to identify and achieve efficiencies?

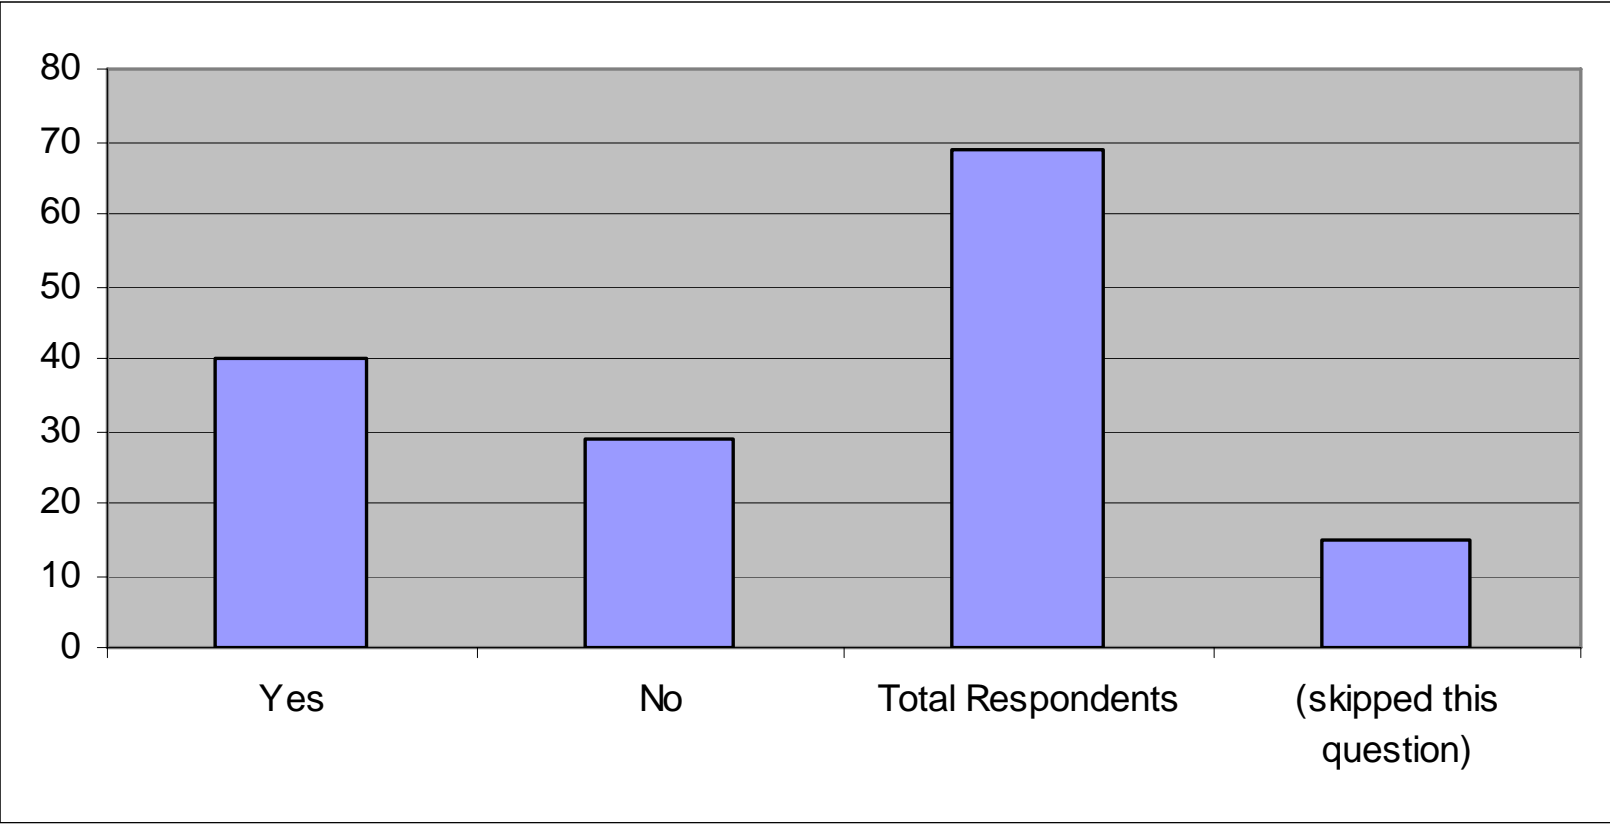

Improvement through efficiency

Have you seen your organisation's current (Forward Look 2006 07) Annual Efficiency Statement (AES)?

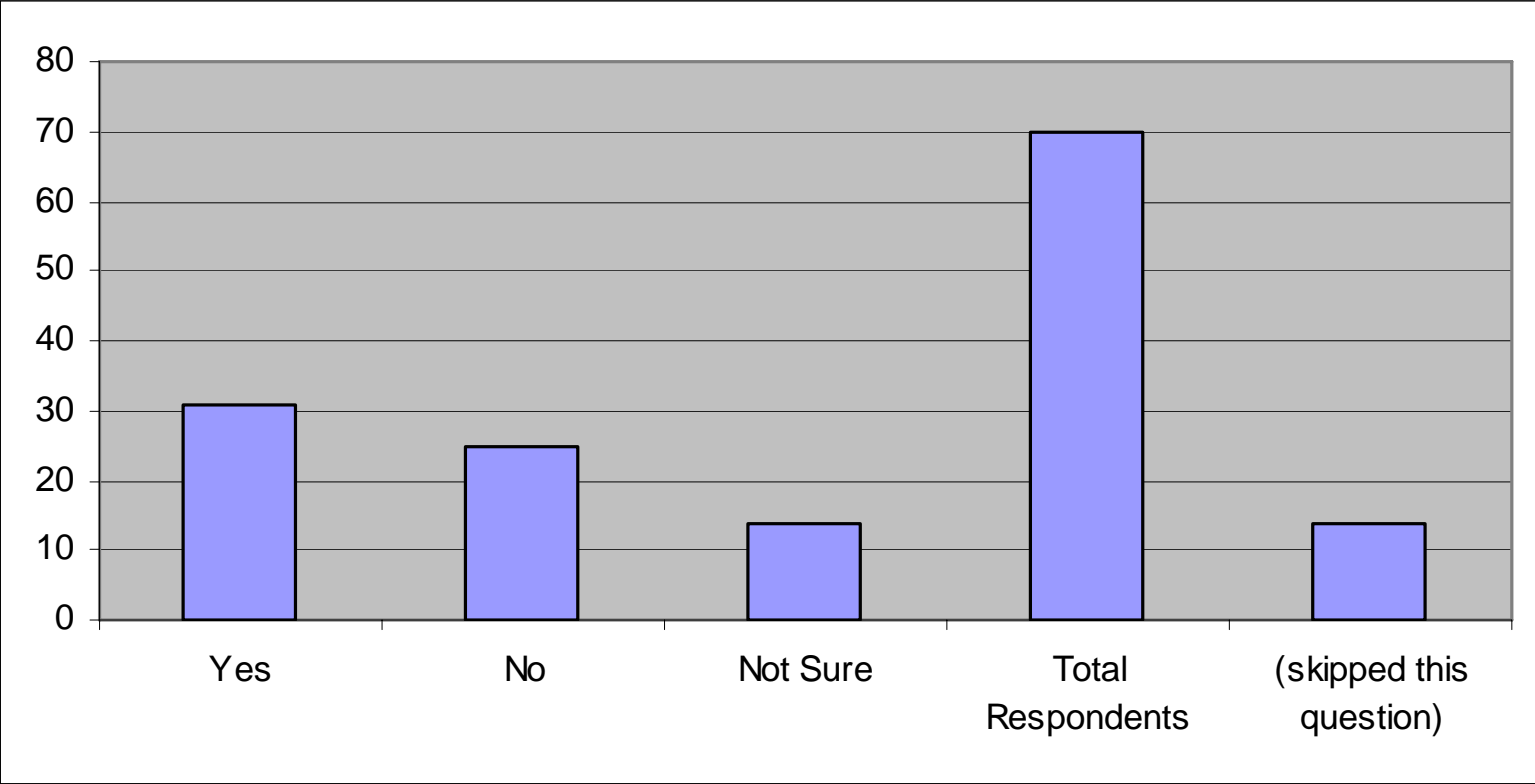

Improvement through efficiency

Have you contributed to that statement (AES)?

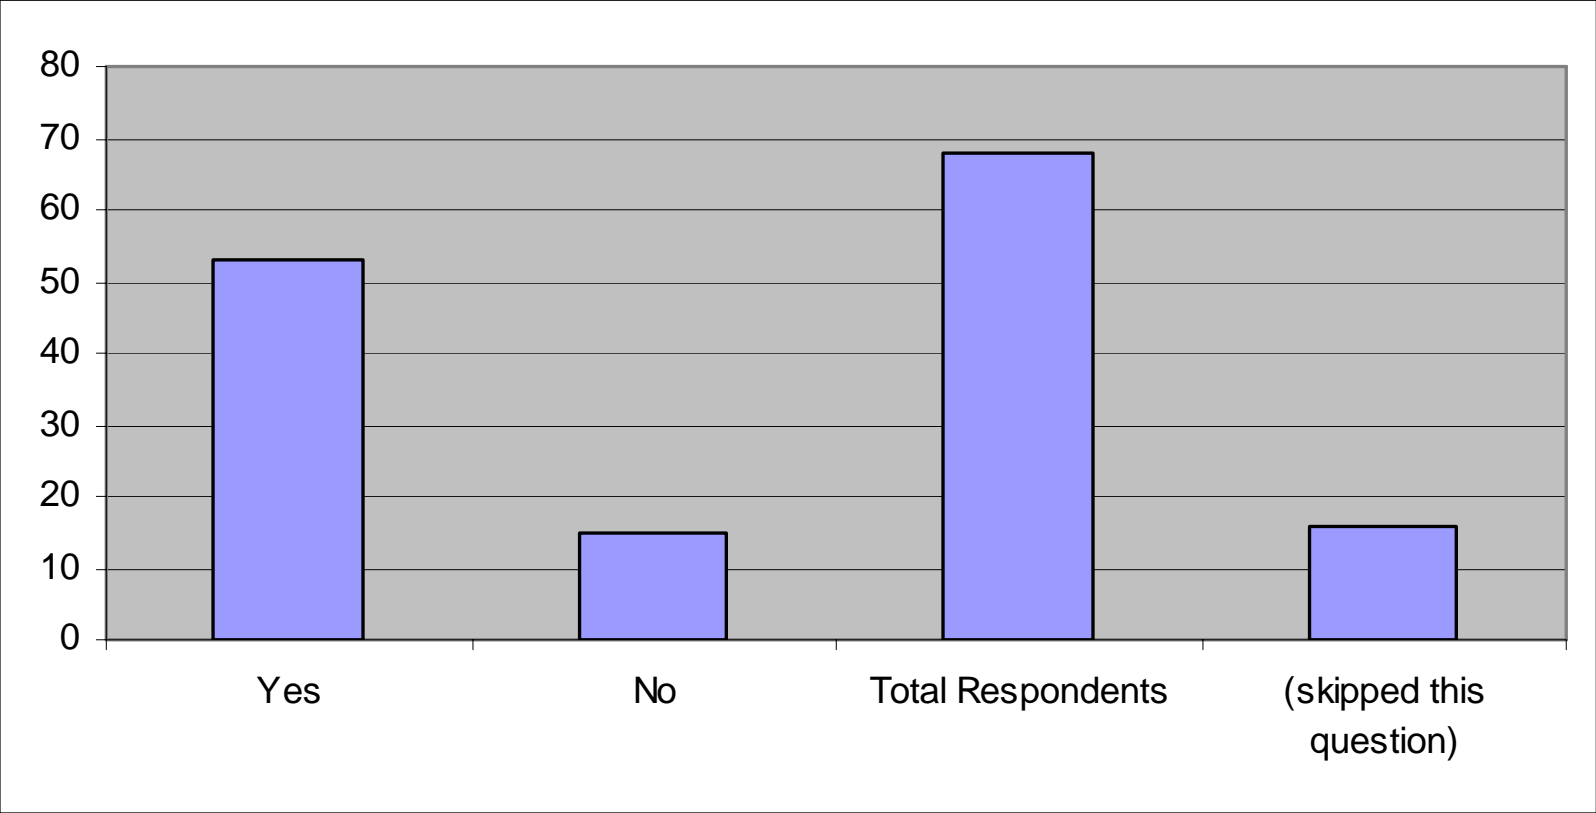

Improvement through efficiency

Do you have responsibility for delivering a target in that statement (AES)?

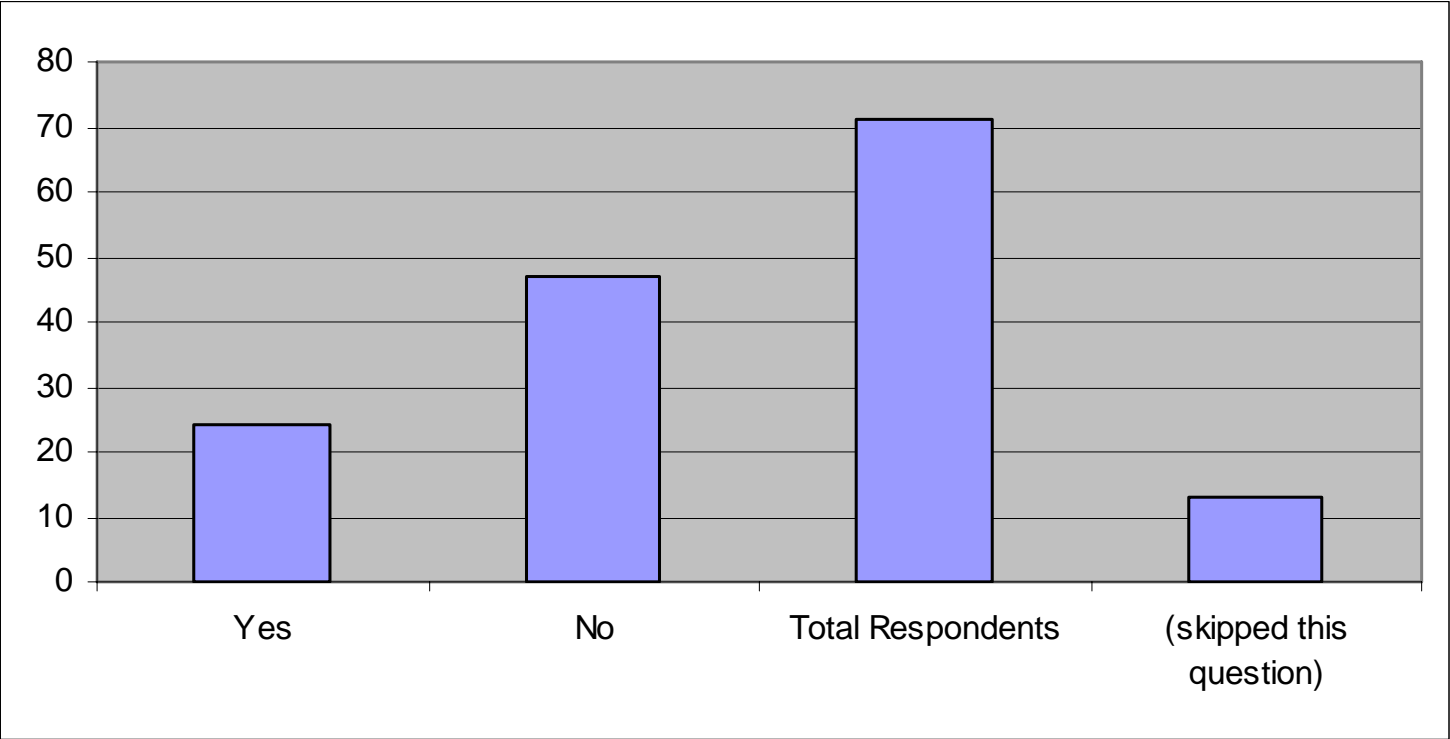

Improvement through efficiency

Are you delivering other efficiencies not taken account of in your Annual Efficiency Statement?

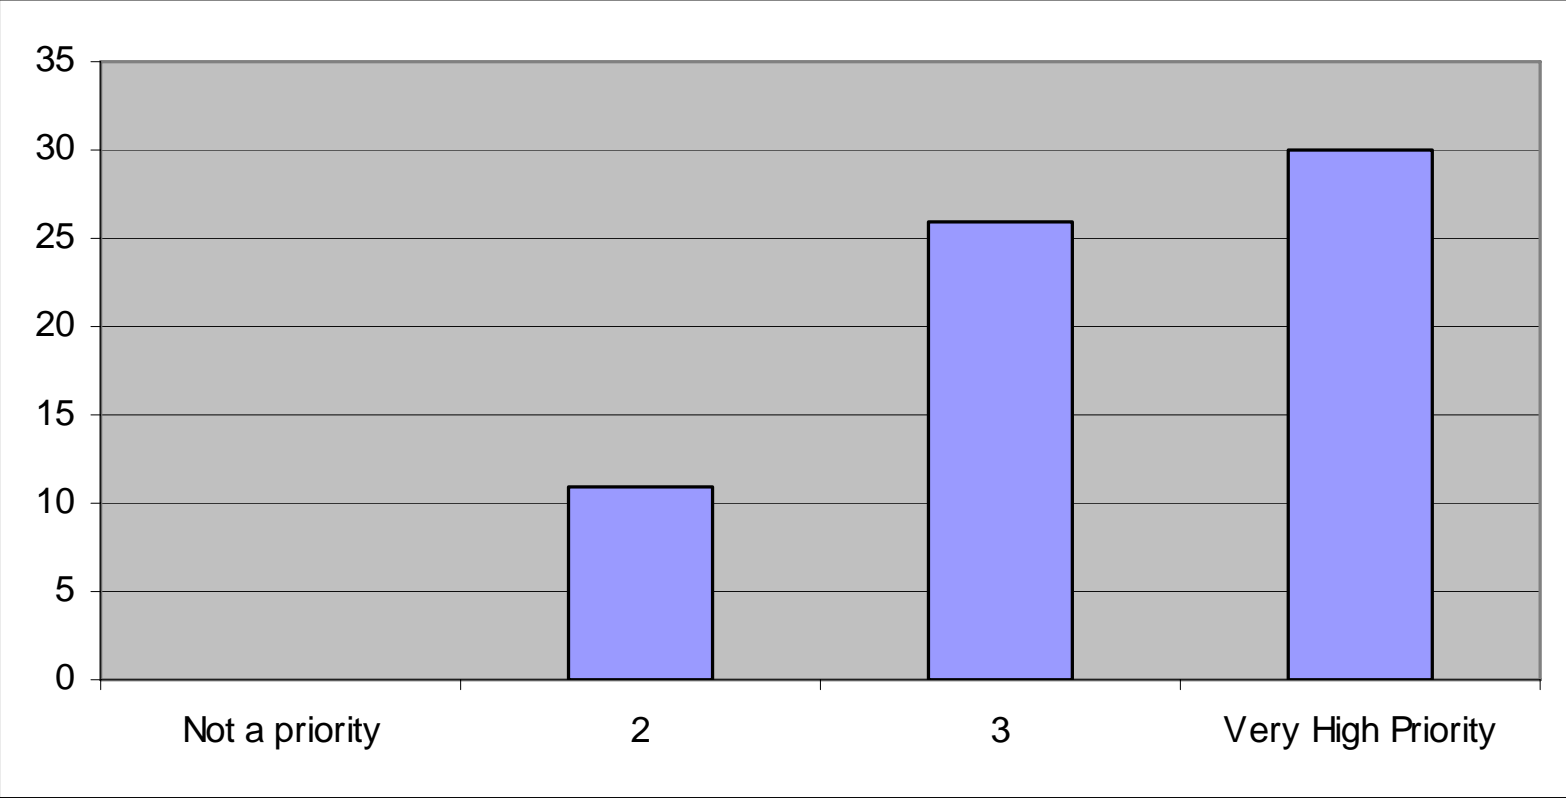

Improvement through efficiency

Are you aware that the EMCEs Annual Efficiency Statement Toolkit is now available on emce.gov.uk for use by your authority to develop its efficiency programme?

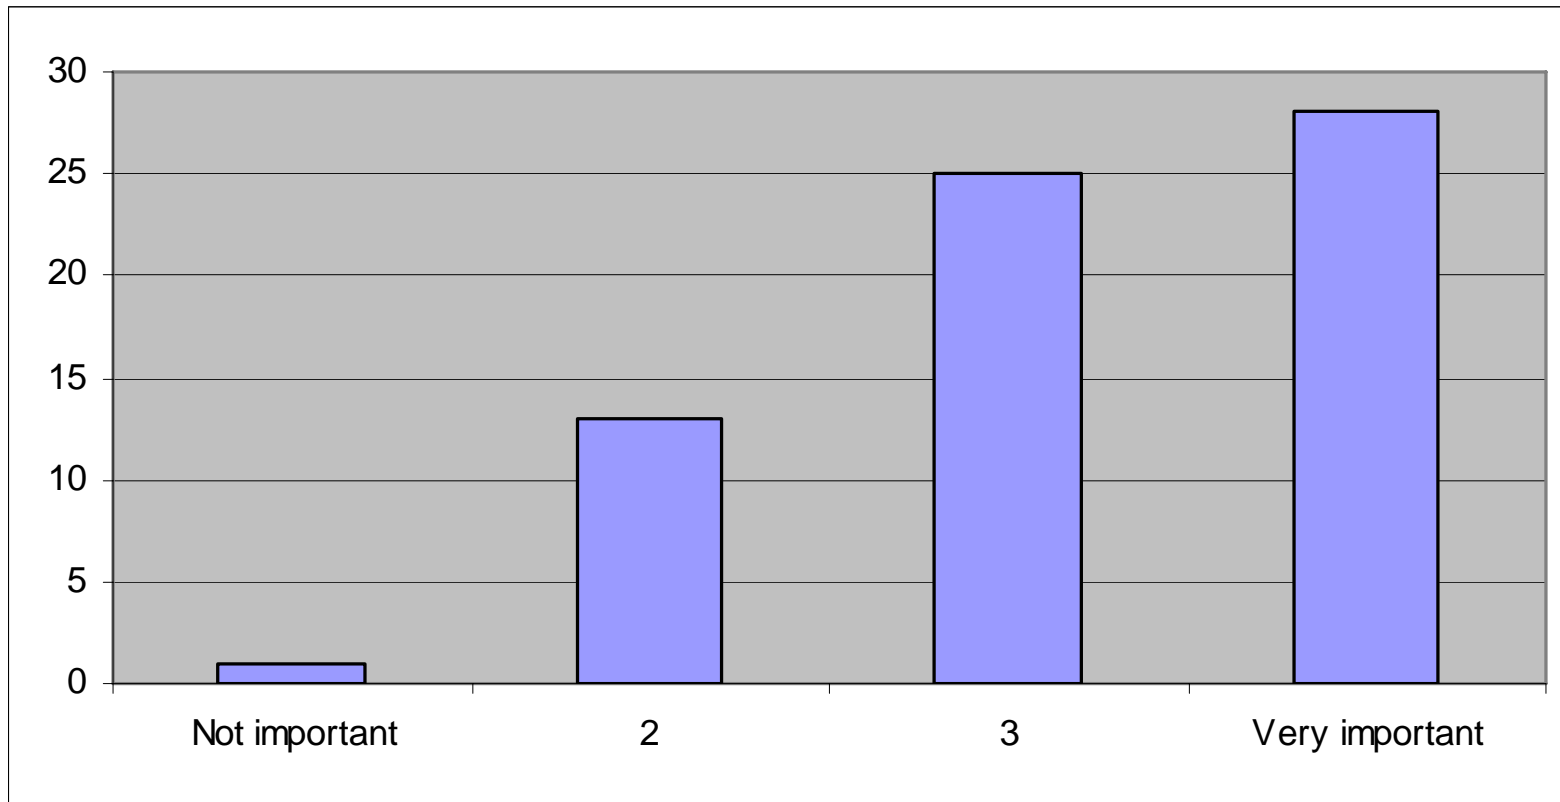

Improvement through efficiency

How would you rate the priority that your organisation gives to delivering efficiency gains?

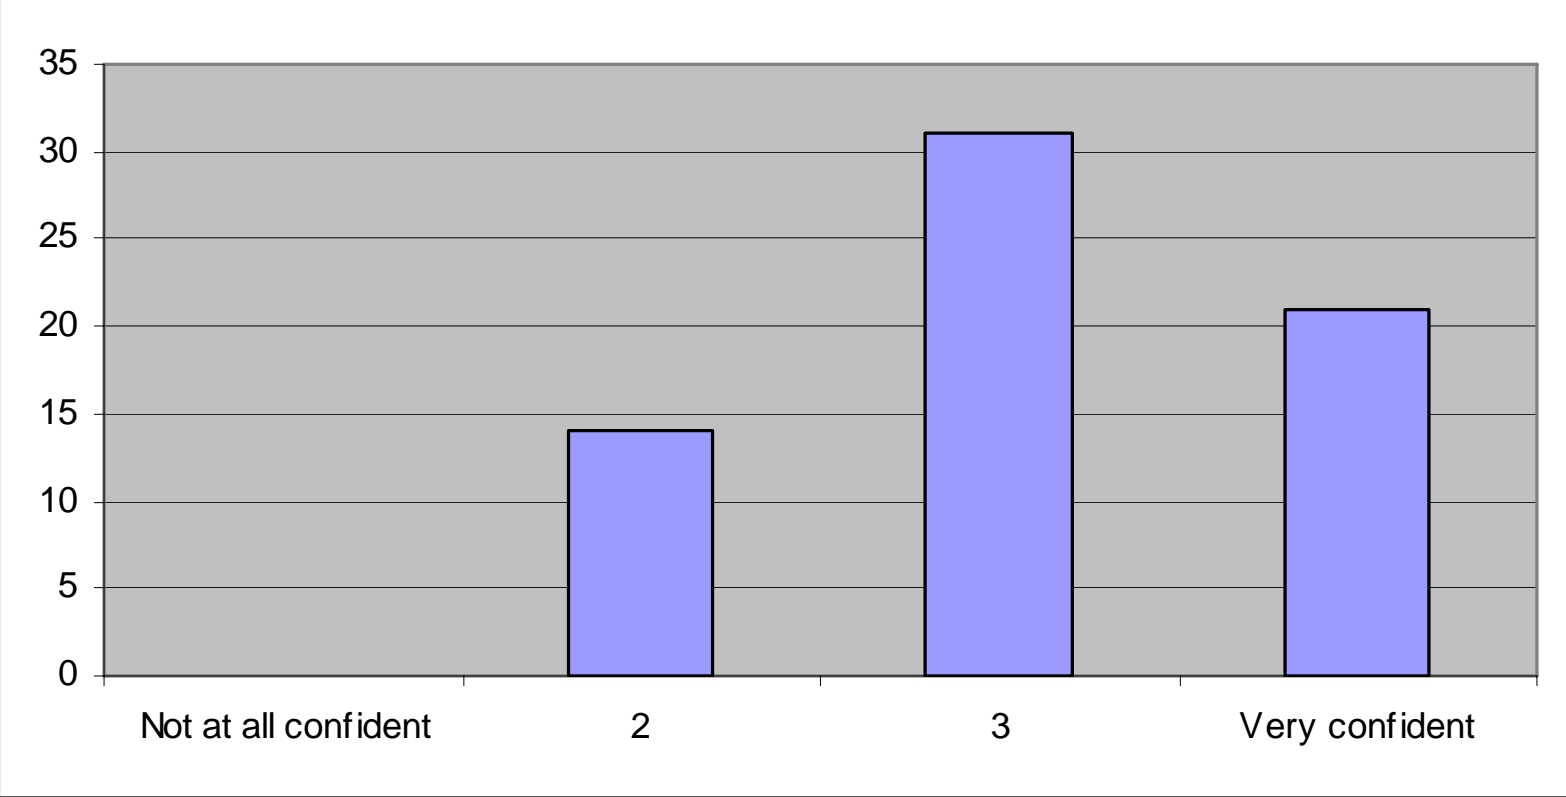

Improvement through efficiency

How would you rate the importance that your organisation gives to working collaboratively to achieve efficiencies?

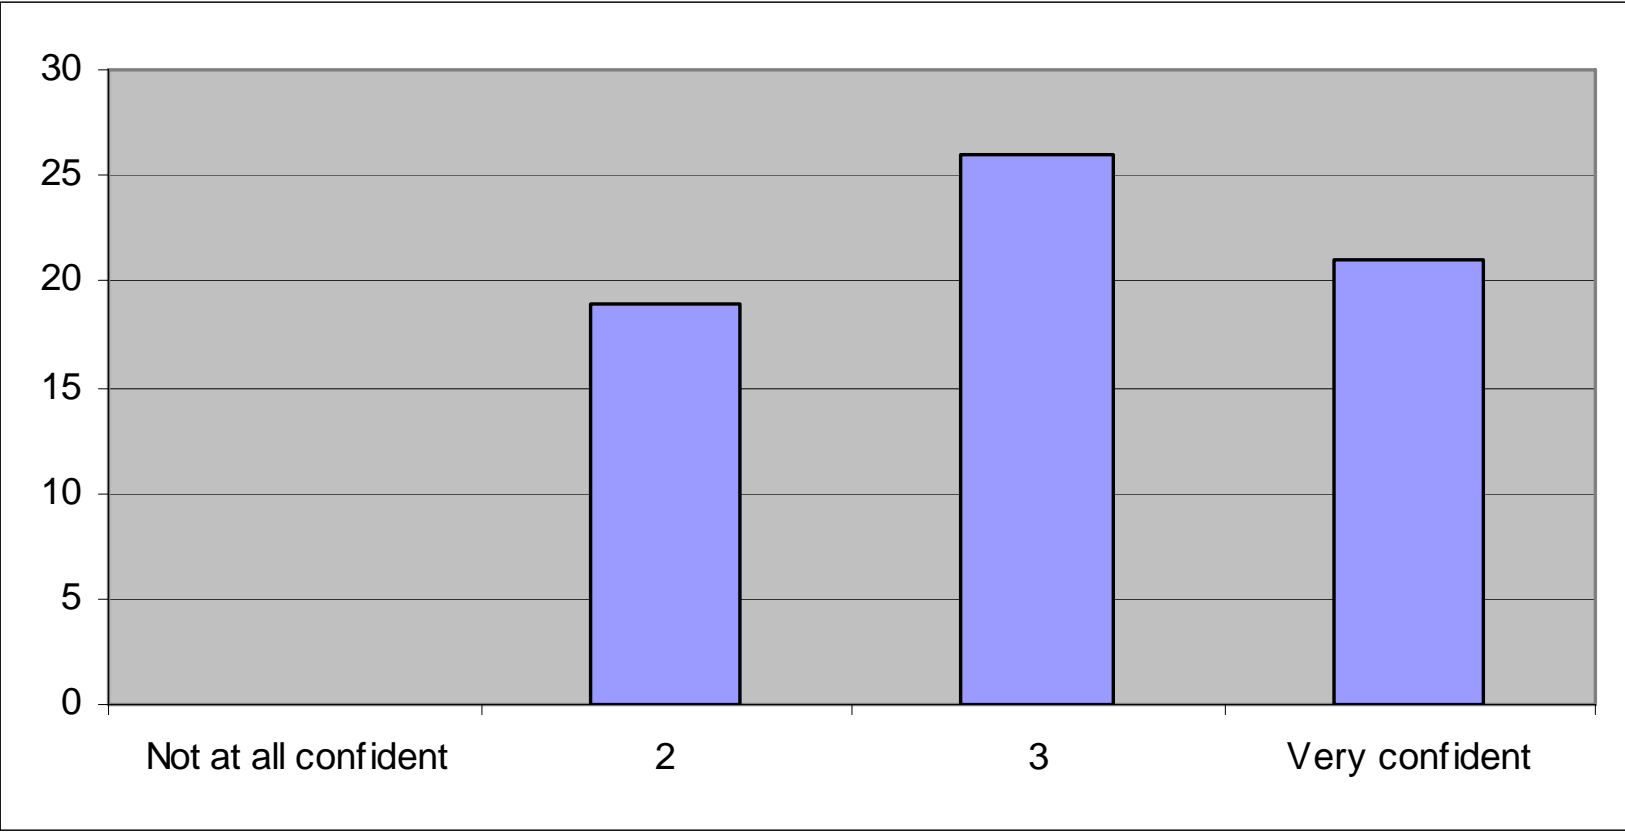

Improvement through efficiency

How confident are you that your organisation has the plans in place to deliver the identified efficiency gains by 2007/08?

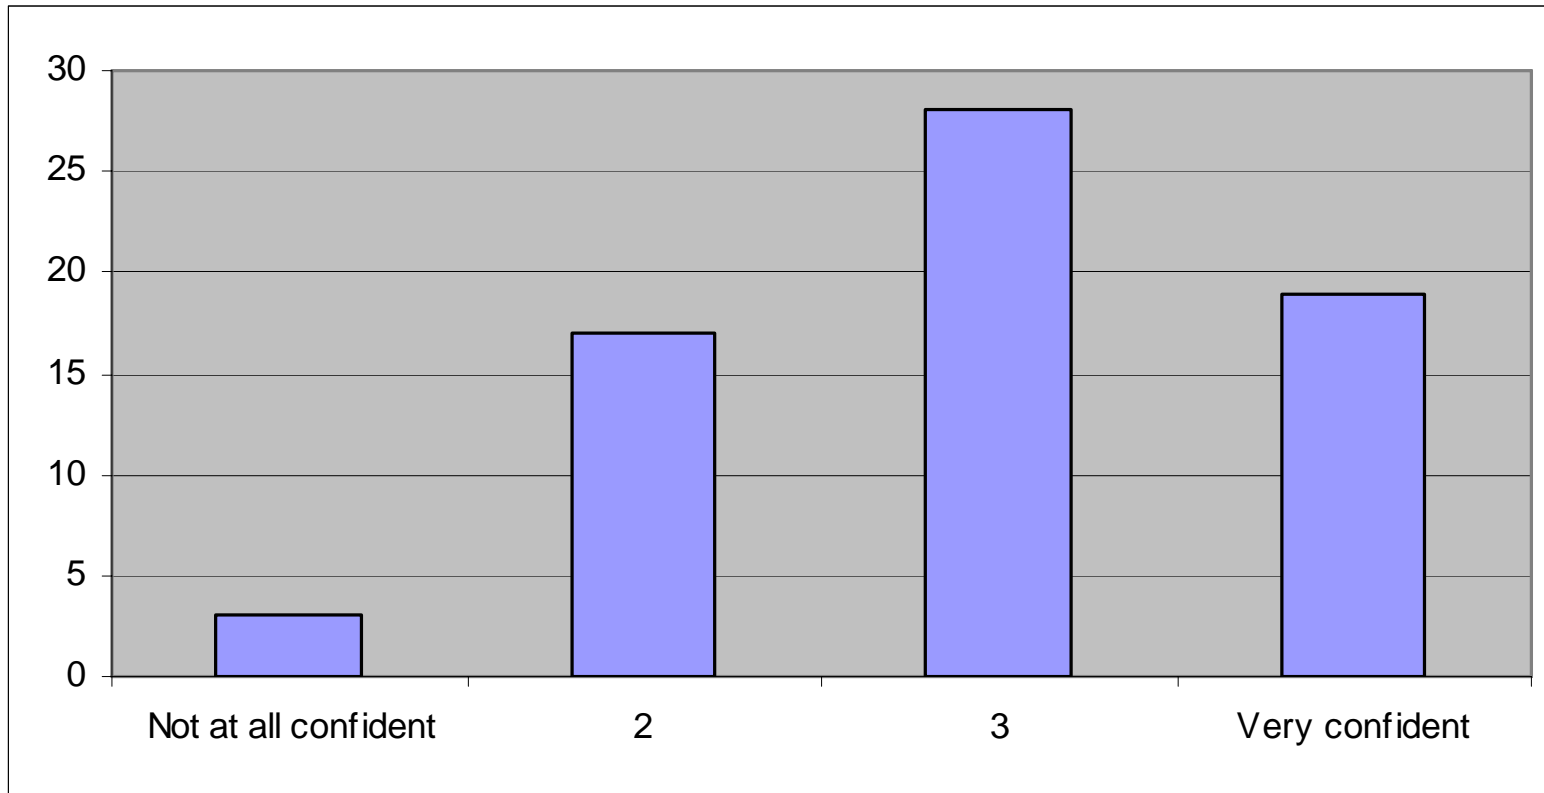

Improvement through efficiency

How confident are you that your organisation will deliver the identified efficiency gains by 2007/08?

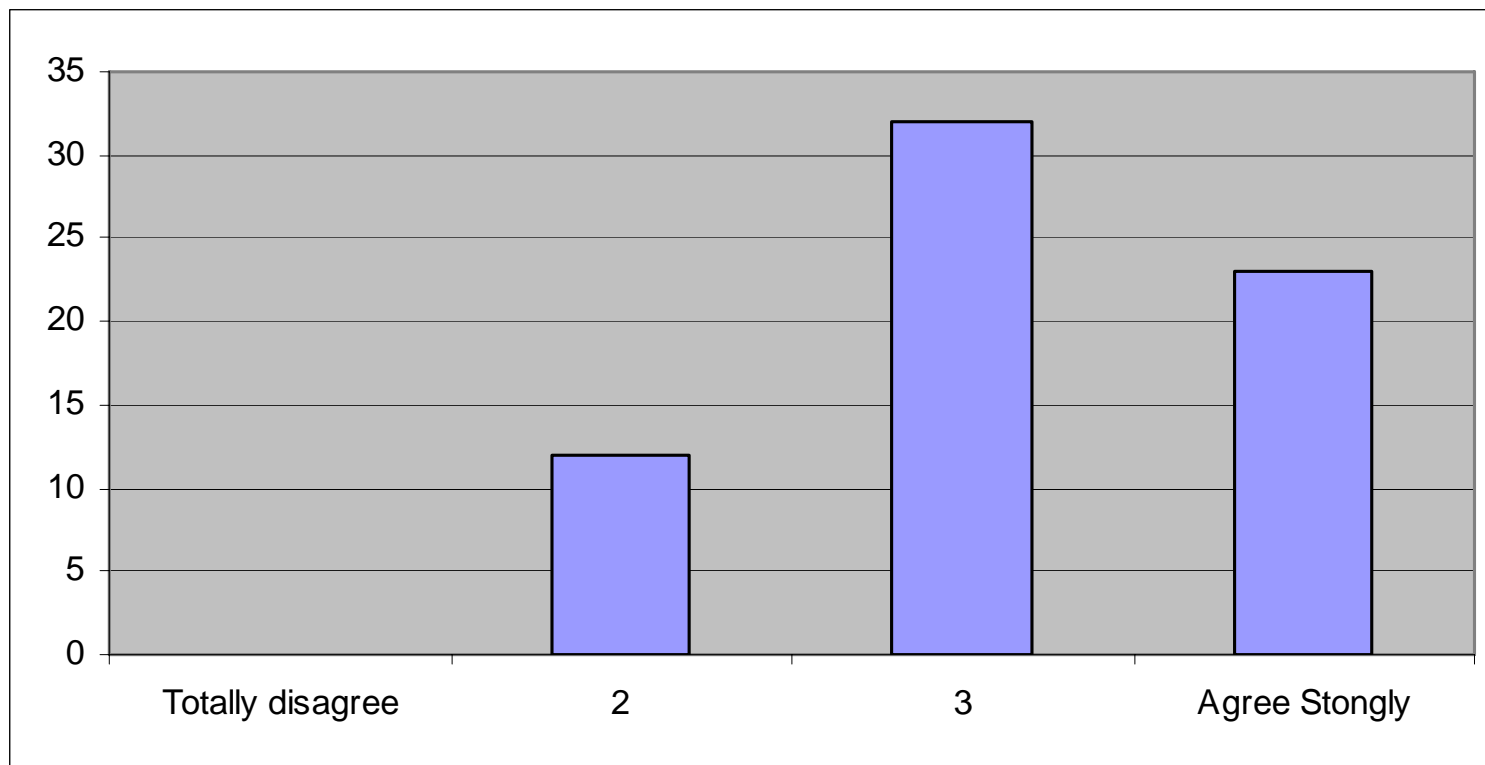

Improvement through efficiency

How confident are you that your organisation has the appropriate culture leadership and openness to embrace change?

Improvement through efficiency

To what extent do you agree that organisations should achieve improved social outcomes and community benefits from their efficiency and procurement programme?
